

St. Joseph's Catholic Secondary School

Course Outline

Gr. 12 Hospitality and Tourism TFJ 4c

Teacher: Mr. S. Girard

Course Description

This course enables students to develop or expand knowledge and skills related to hospitality and tourism, as reflected in the various sectors of the tourism industry. Students will demonstrate advanced food preparation and presentation skills; increase health and wellness knowledge; develop tourism administration and management skills; design and implement a variety of events or activities; investigate principles and procedures that contribute to high quality customer service. Students will expand their awareness of health and safety issues, environmental and societal issues, and career opportunities in the tourism industry.

How This Course Supports the Ontario Catholic School Graduate Expectations

The role of Technological Education in the Catholic faith community is to enable students to develop and utilize their gifts and talents while creating products that benefit others in a way that models Gospel values. The focus of the curriculum is to enable students to develop a responsible work ethic which examines and evaluates the use of resources and the relevance to customer satisfaction. Process and results are emphasized to ensure that students create products and provide services that recognize our God-given responsibility to respect the dignity and value of the individual and the community.
