

**ST. JOSEPH CATHOLIC SECONDARY SCHOOL
COURSE OUTLINE**

Communications Technology Grade 10 TGJ20

Course Prerequisite - none

Course Description:

This course introduces students to communications technology from a media perspective. Students will work in the areas of TV/video and movie production, radio and audio production, print and graphic communications, photography, and interactive new media and animation. Student projects may include computer-based activities such as creating videos, editing photos, working with audio, cartooning, developing animations, and designing web pages. Students will also develop an awareness of environmental and societal issues related to communications technology, and will explore secondary and postsecondary education and training pathways and career opportunities in the various communications technology fields.

Catholic Graduate Expectations:

Students are expected to use technology in ways that support the Catholic graduate expectations by being a discerning believer formed in the Catholic Faith Community, be an effective communicator, being a reflective, creative and holistic thinker, a self-directed responsible lifelong learner, a collaborative contributor, a caring family member and a responsible citizen.
